

## **Districts step up on Investment outreach for Invest Rajasthan**

District level investment outreach puts micro and small investments on fasttrack progress in Rajasthan.

All districts to hold Invest Rajasthan curtain raisers for Invest Rajasthan

Jaipur. Monday 22 November, 2021.

District level investment conclaves will put micro and small investments on fasttrack progress in Rajasthan. A series of such district level conclaves has been planned ahead of Rajasthan Government's international investment summit "Invest Rajasthan 2022". These district conclaves will extend the small investors an opportunity to sign MoUs and LoIs with the government. The first district conclave in the sequence will be held at Bhilwara on 15 December, 2021.

As part of these conclaves officials from the industries department are reaching out to existing investors and investor groups to explore the expansion and new investment possibilities. The Rajasthani diaspora is also being approached in this regard and are being assured of rapid progress of their proposals along with other strategic and policy advantages of investment in the state.

An outlay of the expected MoUs and LoIs was presented by the DIC officials at Invest Rajasthan review meeting held in Jaipur on Monday. The DIC officials briefed upon the preparations for the Investor Conclaves and tabled the investment possibilities in their respective districts. Secretary Industries, GoR, Commissioner Industry and Commerce, Additional Commissioner Bureau of Investment and other senior department officials gave necessary directions to make the investment conclaves success at every district.

“Its an integrated effort of the local industrial organisations and government of Rajasthan to develop a sense of ownership and facilitative environment in each district and pose them as investment destination,” said Smt. Archana Singh, Commissioner Industry and Commerce, GoR.

Hundreds of investment proposals have already been received across all district industries centers (DICs) as investors seek advantage of the opportunity. The proposals are from a variety of sectors ranging from Tourism, Food and Agro Processing, Renewable Energy and even Cement Manufacturing. The DICs have been asked to further step up on the investor outreach activities to ensure maximum conversion of each district's investment potential.

These steps will create a robust foundation for the major investments and bolster state plans to attract international investments in the Invest Rajasthan summit to be held in Jaipur on 24-25 November, 2021. Micro and small industries play a major role in development of industrial infrastructure. Development of these has been a focus of the Rajasthan Industrial Development Policy 2019 and Rajasthan Investment Promotion Scheme 2019.
